

NATURAL CAT LITTER
GOLDEN
light

GOLDEN light

THE REVOLUTIONARY CAT LITTER

EASY TO CLEAN
35%
leichter | lighter

GOLDEN light combines the best features of two innovative components to make life easier for you and your cat. The mineral part of this unique litter ensures optimal clumping, which not only makes cleaning the litter tray a breeze, but also reduces the need to carry the litter out to a minimum.

But that's not all! The plant-based component guarantees effortless handling and at the same time ensures excellent odour binding. This keeps your home fresh and inviting while your cat feels comfortable in its environment.

Choose **GOLDEN light** and experience the perfect combination of functionality and comfort – for a harmonious co-existence with your beloved velvet paw!
